**Subject: Recommendation Letter for Internship – BS Information Technology (8th Semester)**

Dear Sir/Madam,

The Department of Information & Communication Technology, Bahauddin Zakariya University, Multan, is pleased to recommend Mr. Danish Abbas (Roll No. BSIT(M)-22-02), a student of BS Information Technology (8th Semester), for the internship program offered by your esteemed organization.

Mr. Danish Abbas is a diligent, motivated, and academically strong student with a CGPA of 3.81/4.00. Throughout his degree program, he has demonstrated excellent technical aptitude, analytical thinking, and problem-solving abilities. His academic performance and active participation in software development projects reflect his commitment to professional growth and continuous learning.

During his studies, he has acquired practical knowledge and hands-on experience in Software Development, Mobile Application Development, Web Technologies, Database Management Systems, Networking Fundamentals, Information Security, and Cloud-Based Solutions. His Final Year Project focuses on an AI-powered startup validation platform, demonstrating his capability to work with modern software engineering practices and emerging technologies.

In addition to his technical competencies, Mr. Danish Abbas possesses strong communication skills, teamwork abilities, leadership qualities, and a professional attitude. He is disciplined, responsible, and eager to gain industrial exposure that will help bridge the gap between academic learning and professional practice.

We are confident that he will prove to be a valuable intern and will perform his assigned responsibilities with dedication, integrity, and enthusiasm. We therefore strongly recommend him for an internship opportunity at Mansoorah Group of Companies and request your kind consideration of his application.

Sincerely,

**Forwarded By:**

Dr. Tauqeer Safdar
