Candidate — NASTP Summer Internship Program 2026 | Information Technology / Software Development / Artificial Intelligence

Professional Summary

Final-year Bachelor of Science in Information Technology student at Bahauddin Zakariya University (CGPA 3.81/4.00; **96th Percentile**, HEC National Skill Competency Test 2026) with hands-on expertise across NASTP's core domains: **Information Technology, Software Development, and Artificial Intelligence**. Proven ability to **independently design, build, and deploy production-quality software systems** — including **full-stack web applications, AI-integrated multi-agent platforms, real-time communication systems, and ERP-style applications** — following structured SDLC and software engineering best practices. Experienced in **AI pipeline integration (LLM APIs, multi-agent systems), REST API design, cloud platforms, database administration (MySQL, MS SQL Server, MongoDB), and secure system architecture (JWT, OAuth)**. Committed to **innovation, research, and national technological self-reliance** — values that align deeply with NASTP's mission as a **project of strategic national importance** led by the Pakistan Air Force. Eager to turn **academic knowledge into real-world impact** by working alongside industry experts, researchers, and innovators within Pakistan's premier aerospace, technology, and innovation ecosystem.

Education

Bahauddin Zakariya University (BZU), Multan

2022 – 2026

Bachelor of Science in Information Technology (BSIT)

CGPA: 3.81 / 4.00

- FYP Supervisor: Dr. Maruf Pasha, ICT Department, BZU Multan
- HEC National Skill Competency Test (NSCT) 2026:** Score 68/100 — **96th Percentile, Top 4% Nationally** across Software Engineering, Computer Networks, Operating Systems, and Programming
- Relevant Coursework: Software Engineering | Artificial Intelligence | Programming Fundamentals & OOP | Data Structures & Algorithms | Database Management Systems | Computer Networks | Operating Systems | System Analysis & Design

BISE Multan

2020 – 2022

Higher Secondary Certificate — Pre-Engineering (FSc)

978 / 1100 (89%)

BISE Multan

2018 – 2020

Secondary School Certificate — Science

897 / 1100 (82%)

Core Competencies & Technical Skills

- Artificial Intelligence & Emerging Technologies:** AI Pipeline Integration, LLM API Integration (Gemini API), Multi-Agent AI Systems, Data-Driven Decision Support, AI Application Development, Exploratory Data Analysis (EDA)
- Software Development:** Full-Stack Development (MERN: MongoDB, Express.js, React.js, Node.js), REST API Design & Integration, Object-Oriented Programming (OOP), Algorithms & Data Structures, Software Engineering Best Practices, SDLC, Agile Development
- Cybersecurity Fundamentals:** JWT Authentication, OAuth 2.0 (Google, GitHub via Passport.js), bcrypt Password Hashing, Secure API Design, Session Management, Role-Based Access Control
- Real-Time & Cloud Systems:** Socket.io (Real-Time Communication), Google Cloud Platform, Firebase Cloud Firestore, Cloudinary
- Databases & Data:** MongoDB, MySQL, MS SQL Server (Stored Procedures, Normalisation), Python (Pandas, NumPy, Matplotlib, Seaborn), Data Analysis & Visualisation
- Programming Languages:** Python, JavaScript, C#, Dart, HTML5, CSS3
- Developer Tools:** Git, GitHub (Version Control), VS Code, Postman, Vite, Redux Toolkit, Tailwind CSS
- Professional Skills:** Written & Verbal Communication (English / Urdu), Analytical Problem-Solving, Research-Oriented Mindset, Self-Directed Learning, Cross-Functional & Collaborative Teamwork

Projects & Hands-On Experience

StartupLense — AI-Powered Business Analysis Platform (Full-Stack + Multi-Agent AI) *Final Year Project, BZU Multan 2024 – Present*

- Designed and developed a cross-platform application** (Android, iOS, Web, Windows, macOS, Linux) integrating a **5-agent AI pipeline** (Market Analysis, Risk Assessment, Business Strategy, Evaluation) using the **Gemini API** —

directly combining **AI, software development, and cloud computing**, spanning three of NASTP's core technology domains.

- Engineered **data-driven intelligence workflows** with real-time AI processing and structured business intelligence output — analogous to the **decision-support and AI systems** NASTP develops for national and strategic applications.
- Produced full **research-quality documentation** (DFDs, ERDs, architecture diagrams, formal technical report) and presented to academic review panels, demonstrating structured **R&D documentation** ability.
- Managed the full **Agile project lifecycle**: requirements, sprint planning, milestone delivery, and stakeholder communication.
- github.com/DaniAThaheem/startuplense

Full-Stack Web Applications — E-Commerce, Real-Time Chat & Social Media *React.js / Node.js / MongoDB* 2025

- Independently designed and built multiple **production-quality web applications** using **Express 5, MongoDB/Mongoose, and React 19** — including an e-commerce platform, a **real-time chat application** (**Socket.io**), and a social media backend.
- Implemented enterprise-grade **security systems**: JWT, OAuth 2.0 (Google & GitHub via Passport.js), bcrypt, and input validation — directly relevant to NASTP's emphasis on **cyber and IT security**.
- github.com/DaniAThaheem/ecommerce_backend | github.com/DaniAThaheem/chatApp_backend

VideoTube — Production-Grade RESTful Backend System *Node.js / MongoDB* 2024

- Designed and deployed a **scalable RESTful API** managing user authentication, content lifecycle, and analytics across 38+ version-controlled commits, with **JWT token rotation, bcrypt, and full technical documentation**.
- github.com/DaniAThaheem/Dani_S_First_ProBackend_Project

Student Management System — ERP-Style Desktop Application *C# / MS SQL Server* 2023

- Built an **object-oriented C#** desktop application with normalised **MS SQL Server** schema, stored procedures, and **automated reporting** — eliminated manual data compilation, saving an estimated 3–4 hours per reporting cycle.

Certifications & Academic Achievements

Higher Education Commission of Pakistan (HEC) 2026 *National Skill Competency Test (NSCT)* *Score: 68/100 | 96th Percentile — Top 4% Nationally*

- Nationally benchmarked IT competency across **Software Engineering, Operating Systems, Computer Networks, and Programming** — top 4% of IT graduates in Pakistan.

Bahauddin Zakariya University, Multan 2022 – Present *Consistent Academic High Achiever* *CGPA: 3.81/4.00 across 7 Semesters*

- Maintained **top-tier academic standing** throughout the full BSIT programme in a highly competitive national university cohort.

Alignment with NASTP Summer Internship Program 2026

The **National Aerospace Science and Technology Park (NASTP)** — *a project of strategic national importance* led by the Pakistan Air Force, fostering **design, research, development, and innovation in aviation, space, IT, and cyber domains** — represents the most purpose-aligned opportunity in my career journey. My academic and project background spans **all three of NASTP's key IT-related domains mentioned in the internship: Information Technology** (full-stack systems, databases, IT operations), **Software Development** (production-grade MERN applications, REST APIs, SDLC), and **Artificial Intelligence** (5-agent AI pipeline, LLM API integration, data-driven decision support). My **96th-percentile HEC NSCT 2026** result and **3.81/4.00 CGPA** reflect the strong fundamentals in **software engineering, computer networks, operating systems, and programming** that NASTP's cutting-edge technology environment demands. I am deeply committed to **national technological self-reliance and innovation**, and I am genuinely motivated to work alongside NASTP's **industry experts, researchers, and innovators**, contributing to projects that **shape the future** of Pakistan's aerospace, cyber, and IT landscape. NASTP's vision to become **one of the best Aerospace, Cyber & IT Clusters in the world** is the environment where I want to begin building my professional journey — turning academic knowledge into **real-world impact for Pakistan**.
