Intern — Software Development | NASTP Alpha, Rawalpindi | National Aerospace Science and Technology Park

Professional Summary

Final-year Bachelor of Science in Information Technology graduate from Bahauddin Zakariya University (CGPA 3.81/4.00; **96th Percentile**, HEC National Skill Competency Test 2026) with practical experience in **full-stack web development, mobile application development, REST API design, database management, and AI integration**. Independently built and deployed multiple web and cross-platform applications using **Node.js, React.js, Express.js, MongoDB, and Flutter**, applying structured SDLC, version control, and secure authentication practices. Seeking an internship with NASTP Alpha's **Software Division (SDH)** to contribute to software development projects aligned with Pakistan's digital transformation and R&D agenda.

Education

Bahauddin Zakariya University (BZU), Multan 2022 – 2026
Bachelor of Science in Information Technology (BSIT) CGPA: 3.81 / 4.00

- FYP Supervisor: Dr. Maruf Pasha, ICT Department, BZU Multan
- HEC National Skill Competency Test (NSCT) 2026:** Score 68/100 — **96th Percentile, Top 4% Nationally** across Software Engineering, Computer Networks, Operating Systems, and Programming
- Relevant Coursework: Software Engineering | Artificial Intelligence | Programming & OOP | Data Structures & Algorithms | Database Management | Computer Networks | Operating Systems

BISE Multan 2020 – 2022
Higher Secondary Certificate — Pre-Engineering (FSc) 978 / 1100 (89%)

BISE Multan 2018 – 2020
Secondary School Certificate — Science 897 / 1100 (82%)

Technical Skills

- Web Development (Full-Stack):** React.js (v19), Redux Toolkit, React Router, Tailwind CSS, Vite, Node.js, Express.js (v5), RESTful API Design & Integration, Socket.io, Modular Architecture
- Mobile Development:** Flutter, Dart, GetX (State Management), Cross-Platform App Development (Android, iOS, Web, Windows, macOS, Linux), Firebase Integration
- Artificial Intelligence:** AI Pipeline Integration, LLM API Integration (Gemini API), Multi-Agent Systems, Python (Pandas, NumPy, Matplotlib, Seaborn), EDA
- Databases:** MongoDB (Mongoose), PostgreSQL, MySQL, MS SQL Server (Stored Procedures, Normalisation, Triggers), Firebase Cloud Firestore, Database Schema Design, Query Optimisation, Data Modelling
- Software Development Process:** Agile (Scrum / Sprint Planning), SDLC, Requirements Analysis, System Design (DFDs, ERDs, UML), Code Review & Refactoring, Unit Testing Concepts, Technical Documentation, API Documentation, Modular & Clean Code Practices, Git Branching & Version Control
- Security:** JWT Authentication, OAuth 2.0 (Passport.js: Google, GitHub), bcrypt Password Hashing, Input Validation (express-validator), Role-Based Access Control
- Cloud & Integrations:** Google Cloud Platform, Firebase, Cloudinary, Nodemailer, Multer
- Developer Tools:** Git, GitHub (Version Control), VS Code, Postman, Vite
- Programming Languages:** JavaScript, Python, C#, Dart, HTML5, CSS3

Projects

StartupLense — AI Business Analysis App Flutter / Firebase / Gemini API | FYP, BZU Multan 2024 – Present

- Developed a **cross-platform Flutter application** (Android, iOS, Web, Windows, macOS, Linux) integrating a **5-agent AI pipeline** via the Gemini API to perform automated Market Analysis, Risk Assessment, Business Strategy, and Evaluation.
- Implemented **Firebase Cloud Firestore** for real-time data persistence, **GetX** for state management, and modular component architecture reducing development overhead by approximately 30%.
- Wrote formal system documentation (DFDs, ERDs, architecture diagrams, technical report) and presented to faculty panels.
- github.com/DaniAThaheem/startuplense

E-Commerce Platform — Full-Stack Web Application *React.js / Node.js / MongoDB* 2025

- Built a **complete e-commerce web application**: React 19 + Redux Toolkit + Tailwind CSS v4 frontend; Express 5 + MongoDB/Mongoose backend with product management, cart, and order workflows — 110+ version-controlled commits.
- Integrated **Google & GitHub OAuth** (Passport.js), JWT session management, Cloudinary for media, and Mailgen/Nodemailer for transactional email.
- Applied express-validator for request validation and bcrypt for password storage.
- github.com/DaniAThaheem/ecommerce_frontend | github.com/DaniAThaheem/ecommerce_backend

Real-Time Chat Application & Social Media Backend *React.js / Node.js / Socket.io / MongoDB* 2025

- Built a **real-time chat application** using Socket.io for bidirectional communication; React 19 + Tailwind CSS v4 + Headless UI frontend; Express 5 + MongoDB backend with Google OAuth and JWT authentication.
- Built a **social media REST API** (Express 5, MongoDB, Passport.js OAuth, Cloudinary for media) applying Prettier for consistent code formatting.
- github.com/DaniAThaheem/chatApp_backend | github.com/DaniAThaheem/social_media_backend

Task Management Backend & VideoTube REST API *Node.js / Express / MongoDB* 2024

- **Task Management**: REST API with JWT authentication, express-validator, EJS email templates, Multer file uploads, and Nodemailer notifications.
- **VideoTube**: Scalable content-lifecycle REST API with JWT token rotation, bcrypt, and Multer file pipeline — 38+ version-controlled commits with complete API documentation.
- github.com/DaniAThaheem/task_management_app_backend | github.com/DaniAThaheem/Dani_S_First_ProBackend_Project

Student Management System *C# / MS SQL Server* 2023

- Desktop application with normalised MS SQL Server schema, stored procedures, multi-role access control, and automated reporting — reduced manual processing by approximately 3–4 hours per cycle.

Certifications & Academic Achievements

Higher Education Commission of Pakistan (HEC) 2026

National Skill Competency Test (NSCT) 68/100 — **96th Percentile, Top 4% Nationally**

- Tested across Software Engineering, Computer Networks, Operating Systems, and Programming — top 4% of IT graduates in Pakistan.

Bahauddin Zakariya University, Multan 2022–2026

Academic Achievement CGPA: 3.81/4.00 across 7 Semesters

- Maintained top-tier academic standing throughout the full BSIT programme.

Suitability for Intern (Software Development) — NASTP Alpha Rawalpindi

NASTP Alpha's **Software Division (SDH)** focuses on **web development, mobile application development, full-stack integration, and database management** to support Pakistan's digital transformation and PAF's software requirements. My project portfolio directly covers each of these areas: a **cross-platform Flutter mobile application** with AI integration (StartupLense), multiple **full-stack web applications** using React.js and Node.js (e-commerce, real-time chat, social media), and **REST API and database management** experience across MongoDB and MS SQL Server. My **96th-percentile HEC NSCT 2026** result and **3.81/4.00 CGPA** confirm strong fundamentals in software engineering, programming, and computer networks. I am available for the internship at **NASTP Alpha, Rawalpindi** and apply online at **nastp.gov.pk**.
